25: Threat to Human Life/Safety:						Residence				336				
Evacuation(s) in progress No evacuation(s) imminent						Commercial Property				25				
Potential future threat XX No likely threat						Outbuilding/Other				292				1

- 26: Projected incident movement/spread 12, 24, 48, and 72 hour time frames:
- 12 hours: **Minimal spread to the ENE.**
- 24 hours: Minimal spread to the ENE.
- 48 hours: Minimal spread to the NE.
- 72 hours: Minimal spread to the NE.
- 27: Values at Risk: include communities, critical infrastructure, natural and cultural resources in 12, 24, 48 and 72 hour time frames:
- 12 hours: Davis Community, Crawford Community, Town of Fargo, Spanish Creek Community, Harper Hammock Community, Kingfisher Boat House, Stephen Foster State Park Facilities, High Value Commercial Timberlands, Okefenokee National Wildlife Refuge and cultural resources, CSX Railroad, Norfolk Southern Railroad and powerline.
- 24 hours: Same as above
- 48 hours: Same as above
- 72 hours: **Same as above**
- 28: Critical Resource Needs (amount, type, kind and number of operational periods () in priority order in 12, 24, 48, and 72 hour time frames):
- 12 hours: None
- 24 hours: None
- 48 hours: **None**
- 72 hours: None
- 29: Major problems and concerns (control problems, social/political/economic concerns or impacts, etc.) Relate critical resources needs identified above to the Incident Action Plan.

Moderate to heavy fuel loads in the swamp and uplands; limited accessibility for ground equipment; lack of water resources for sustained attack; mulitiple jurisdictions involved; wilderness area; and reburn potential over the entire fire area. Needle cast (up to 6" in depth) and re-sprouted palmetto

reburn concerns.

30: Observed Weather for Current

Operational Period

Peak Gusts (mph): 6 g15 Max.

Temperature: 100

Wind Direction: **SW** Min.

Relative Humidity: 35

31: Fuels/Materials Involved: **7 Southern Rough**

Heavy swamp fuel loads, heavy to moderate palmetto/gallberry, 3+ vear rough

32: Today's observed fire behavior (leave blank for non-fire events):

Significant areas of smoldering fire and increasing surface fire.

33: Significant events today (closures, evacuations, significant progress made, etc.):

In the process of demobing excess resources. Continued conducting damage surveys on the Okefenokee Refuge.

34: Forecasted Weather for next Operational Period Wind Speed (mph): 7 g15 Temperature: 99 Wind Direction: SW Relative Humidity: 35

35: Estimated Control 36: Projected Final Size: 37: Estimated Final Cost: Date and Time:

38: Actions planned for next operational period:

Patrol and control reburn, mop up, improve line, flag access and escape routes, and recon rehab opportunities. Currently conducting and continuing damage surveys on the Okefenokee Refuge.

39: For fire incidents, describe resistance to control in terms of:

- 1. Growth Potential High
- 2. Difficulty of Terrain **High**
- 40: Given the current constraints, when will the chosen management strategy succeed?
- 41: Projected demobilization start date:
- 42: Remarks:

Agency Administrator objectives are to contain all fires within the Okenfenokee NWR, using indirect tactics at the swamp edge because of inaccessible terrain and to maintain wilderness values and reduce negative impacts to the ecosystems. Reduction in incident personnel resulting from demob.

Incident Name	Suppression Strategy	Size	<percent MMA</percent 	Cost To Date
Honey Prairie	Point or Zone Protection/Limited Perimeter Control	302,605	70%	\$43,910,333
Moniac	Full Suppression/Perimeter Control	43	100%	
Road 22	Full Suppression/Perimeter Control	8	100%	
Murry Road	Full Suppression/Perimeter Control	2	100%	
Boone	Full Suppression/Perimeter Control	3	100%	
Whites Flat	Full Suppression/Perimeter Control	3	100%	
Secret	Full Suppression/Perimeter Control	2	100%	
Moccasin	Full Suppression/Perimeter Control	14	100%

44: Cooperating and Assisting Agencies Not Listed Above:

GEMA, GDOT, FLDOT, County EMA's, GOAL, FFS, GFC, Rayonier, Superior Pine and Langdale. Rayonier, Superior Pine and Langdale resources are not reflected in the Honey Prairie Complex resource numbers, since they will respond to protect their own lands as needed.
